The Ministry of Culture of the Russian Federation presents its respects to the Ministry and has the honor to inform that the educational and humanitarian online project «Days of Culture with no Barriers» is being carried out.

«Days of Culture with no Barriers» is aimed at developing bilateral cultural ties and promoting the best works of art from Russia and participating countries. The project consists in broadcasting recordings of live music performances by the distinguished music groups and artists via online or on television. Against the current global background this format proved to be popular among viewers from 10 countries of the world and at the same time made it possible to maintain dialogue between Russian and foreign cultural organisations. The project was viewed by the overall audience of more than half a million people.

In this regard the Ministry of Culture of the Russian Federation invites the Ministry to participate in «Days of Culture with no Barriers» in 2021. The practical implementation of the project consists in exchanging high-quality video recordings (videos should be made in FullHD with the resolution of 1920 x 1080) of live performances by music groups. Recordings should last for up to 60 minutes. All the materials are exchanged on a non-profit basis and in compliance with copyright law so that recordings could be broadcasted afterwards either on state TV-channels, or on special Internet platforms created with the assistance from the high-ranking state entities in the sphere of cultural policy.

In Russia video recordings provided by the participating countries will be broadcasted on the Internet platform «Culture.RU» which was specially created by the Ministry of Culture of the Russian Federation. The platform hosts online broadcasts and recordings of cultural events from all over the country.

We are certain that the project «Days of Culture with no Barriers» will be met with enthusiasm by viewers from both our countries and will once again emphasize the importance of cultural cooperation between Russia and Albania. The Ministry would be grateful for a soonest **reply from the Ministry regarding whether or not it is interested in participating in the project.**

The coordinator of the project on behalf of the Ministry of Culture of Russia is Federal directorate of performing arts «ROSCONCERT». The point of contact in this matter within the Directorate is the head of the office of creative programmes Terzyan Rimma Arshakovna, mobile phone +7 (985) 123-45-93, e-mail: r.terzyan@rosconcert.ru

The Ministry of Culture of the Russian Federation avails itself of the opportunity to renew to the Ministry assurances of its highest consideration.
